

ALL MOBILIZED FOR ENERGY SOBRIETY

Facing ecological and economic challenges, **Colis Privé is doing its part and committing to reducing its energy consumption by 15% by 2025.**

To reduce our consumption and environmental footprint while adhering to our ISO 50 001 commitments, everyone's participation is essential!

**To save energy, every gesture counts:
we act, we reduce!**

Heating

- Stopping the heating of platforms
- Limiting office heating to 19°C
- Limiting office air conditioning to 26°C
- Setpoint value for domestic hot water: 55°C
- Conducting Energy Performance Diagnostics on all sites

Lighting

- 100% of sites equipped with presence and twilight-detecting LED lights
- Systematically turning off lights when leaving a room

Fuels

- Encouraging carpooling
- Eco-driving awareness program
- Speed limit of 110 km/h
